**Encl:** As Stated

Diabetes in society and people. Several institutes have initiated in-service programmes to enhance the knowledge, skills and core competencies of primary care physicians of all deliverer standardised care. We need to work collaboratively with governments, civil society, academia, health care workplaces, media and other local partners. We all have a role to play to ensure healthy environment for a healthy living. Walking is perhaps the simplest and the most effective way to maintain one's health, and for diabetes to manage it is not difficult. It doesn't require any training or special equipment, which means it can be done without a break. Living with diabetes may not be easy but it isn't impossible either. A few lifestyle and dietary changes and all it takes to keep the disease under control. (B-15)
