ENCL: As Above

Editorial

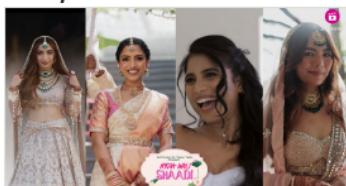

Honking are a menace

The whole world is alarmed at air, water and land pollution. But there's a deafening silence about noise pollution. Be it human or machine-created, noise disrupts normal activity and balance of life. Honking by motorists is the largest source of noise pollution in the India. The menace of honking is increasing day-by-day in Metro cities in particular, aggravating noise pollution resulting in serious health hazards.

The indiscriminate use of the horn is due to lack of patience of road users to follow rules and regulations. Everybody wants to reach everywhere first! In other countries, honking is considered uncivilised, but in the Indian context, a cultural scene is attached to it.

Indiscipline is the root cause of such rash driving using the power of one's shrill horn. Our growing sumptuousness makes us more anti-social, and loud obnoxious public behaviour appears to be the norm. There is no thought given to the very young, the old and the sick. As per the Supreme Court, it is an offence to blow horns in five sensitive areas anywhere in the country. These are - schools, signal during traffic jams in residential areas, near hospitals, and near religious institutions. Most of us are not even aware of these rules and violate the law all the time.

Unnecessary honking and using shrill horns are a menace and we need to appeal to all citizens to help to curb it because no law or rule will help unless the driver changes his or her mindset. Lowering the decibel levels is not the priority, we have to educate people and still if they persist with honking, corrective action will be taken. Every single individual should take a pledge to avoid honking and to drive defensively, carefully and with discipline... and recognise that they want to live in a better city.

Nykka Makes Its Streaming Debut with Nykka Wali Shaadi on JioCinema

Ahmedabad, Beauty meets love in Nykka Wali Shaadi, a heartwarming series that follows four real brides as they step into their dream bridal looks, crafted with Nykka's expert beauty touch. Streaming now on JioCinema, this Telly and Nykaa production captures the emotional and transformative journey of each bride, from moodboarding their vision to the final reveal, a moment filled with love, tradition, and pure joy.

Meet the Brides: Jagriti Rajulu - A survivor's story of resilience, beauty, and hope

IESA Views on India US Joint Statement

Ahmedabad, The recent India-U.S. bilateral engagement, following Prime Minister Modi's visit and meeting with President Trump, reaffirmed a shared vision of the relationship as pivotal to global stability and prosperity. This partnership has grown into one of the most significant in the 21st century, addressing strategic, economic, and technological priorities.

Key Long-Term Impacts of the Modi-Trump Meeting: Strengthened Bilateral Relations in Technology and Energy, Strategic Convergence on China, Expansion of Trade and Investment Opportunities. Despite ongoing challenges,

after battling breast cancer, Seema Pranyak Gowdar - A dedicated army officer embracing her moment to shine after years of service. Maiti Shahani Kapoor - A cross-cultural love story blending Nepali-Sindhi and Parsi-Punjabi traditions. Avneet Chhabria - A love story in the making, proving that soulmates can be manifested. A celebration of beauty, emotions, and bridal dreams, Nykka Wali Shaadi is a must-watch for anyone who believes in the magic of weddings. Now streaming on JioCinema!

Water supply disruption in key Ahmedabad areas due to pipeline connection work

Ahmedabad residents in several key areas including Shilaj, Bopal, Ghuma, Makhtampura and Sarikhedi wards will face water supply disruptions on Wednesday evening due to crucial pipeline connection work being undertaken by the Ahmedabad Urban Development Authority (AUDA). Normal water supply is expected to resume on Thursday morning, subject to available quantity. The shutdown is necessary to

facilitate the connection of a newly laid pipeline from Vaishnodevi overhead head tank to the existing 1600 mm diameter trunk main line, which was relocated to make way for the construction of an underpass. This underpass project, initiated by AUDA, required the existing pipeline to be shifted, prompting the need for integration work. The connection work is focused on the existing 1600 mm diameter trunk main line at Ognaj Circle. The scope of the work includes: Connecting

the newly laid pipeline from Vaishnodevi overhead head tank to the existing 1600 mm trunk main line that supplies water towards Sardar Patel Ring Road. Integrating the new 2,500 mm diameter Mild Steel (MS) trunk main line from the Jaspur Water Treatment Plant to the existing main pipeline.

This trunk main runs parallel to Sardar Patel Ring Road and plays a critical role in Ahmedabad's water distribution network.
